Subject Index

Volume 41, January–June 2003

A

Acetylcholine
- Coronary Myogenic Constriction Antagonizes EDHF-Mediated Dilation: Role of K_{Ca} Channels, 912
- Heme Oxygenase Inhibitor Restores Arteriolar Nitric Oxide Function in Dahl Rats, 149
- PDE5 Inhibitor Sildenafil Citrate Augments Endothelium-Dependent Vasodilation in Smokers, 1106

Adolescence
- Adolescent Pain Sensitivity Is Associated With Cardiac Autonomic Function and Blood Pressure Over 8 Years, 1228

Adolescents
- Rapid Child Growth Raises Blood Pressure in Adolescent Boys Who Were Thin at Birth, 451

Adrenal gland
- Differential Expression of AT_1 Receptors in the Pituitary and Adrenal Gland of SHR and WKY, 984
- Is Altered Adrenal Steroid Biosynthesis a Key Intermediate Phenotype in Hypertension?, 993

β-adrenergic
- β-Adrenergic Activation Initiates Chamber Dilatation in Concentric Hypertrophy, 499

Adrenergic receptor agonists
- Regression of Isoproterenol-Induced Cardiac Hypertrophy by Na^+/H^+ Exchanger Inhibition, 1324

Adrenocorticotropic hormone
- Is Altered Adrenal Steroid Biosynthesis a Key Intermediate Phenotype in Hypertension?, 993

Adrenomedullin
- Adrenomedullin Overexpression to Inhibit Cuff-Induced Arterial Intimal Formation, 302
- Deficiency of Adrenomedullin Induces Insulin Resistance by Increasing Oxidative Stress, 1080
- Ventricular Adrenomedullin System in the Transition From LVH to Heart Failure in Rats, 512

Afferent arteriole
- Inhibition of Apical Na^+/H^+ Exchangers on the Macula Densa Cells Augments Tubuloglomerular Feedback, 688

Aging
- β_2-Adrenergic Receptor Gene Polymorphism, Age, and Cardiovascular Phenotypes, 361
- Aging Increases Aortic MMP-2 Activity and Angiotensin II in Nonhuman Primates, 1308
- Atrial Fibrillation in Hypertension: Predictors and Outcome, 218
- Deficiency of Adrenomedullin Induces Insulin Resistance by Increasing Oxidative Stress, 1080
- Greater Age-Related Reductions in Central Arterial Compliance in Resistance-Trained Men, 130
- Interactions Between Leptin and the Human Sympathetic Nervous System, 1072

Akt
- Insulin-Induced Akt Activation Is Inhibited by Angiotensin II in the Vasculature Through Protein Kinase C-α, 775
- Wall Stiffness Suppresses Akt/eNOS and Cytoprotection in Pulse-Perfused Endothelium, 378

Albuminuria
- Abolition of End-Organ Damage by Antiandrogen Treatment in Female Hypertensive Transgenic Rats, 830
- Effect of Low-Dose Perindopril/Indapamide on Albuminuria in Diabetes: Preterax in Albuminuria Regression: PREMIER, 1063
- Effects of the Selective Aldosterone Blocker Eplerenone Versus the Calcium Antagonist Amlodipine in Systolic Hypertension, 1021

Aldosterone
- Aldosterone Regulates the Na-K-2Cl Cotransporter in Vascular Smooth Muscle, 1131
- Dietary Salt Regulates Renal SGK1 Abundance: Relevance to Salt Sensitivity in the Dahl Rat, 874
